## **OFSTED**

Dear Parents and Children

Ofsted Report – Inspection 23<sup>rd</sup> May 2017

The Official Ofsted report has now been sent to school for me to share with you and the Staff and Governors before it goes live on the Ofsted website in a few days. The copy you have is the same one the school receives and this will be available for the wider public to see soon.

As I hope you already realise, we are all immensely proud of our school. So when Ofsted visit, recognise and describe the school in the way they have, we feel that a fair judgement has been made. The inspector clearly understood how the school operates including how well we identify our own strengths and areas for development.

I am extremely grateful to parents that supported the school before, during and after the inspection. This happened in lots of ways either by giving us feedback (Governors questionnaires), by completing the online Ofsted “Parentview” survey or by personally approaching the inspector or by doing what you normally do – that is, getting your children to us happy, healthy and ready to learn.

So congratulations to us all. It’s a great confidence boost to enable us to move on to even more success through hard work, innovation and enjoyment of school life in the future.

M Bird
